EDUCATION

University of Pennsylvania (GPA: 3.86)

B.S.E. **Computer Science** (*Concentration: Artificial Intelligence*)

Aug 2024 - May 2028

Philadelphia, PA

PROJECTS

PetalLens | React • TensorFlow

Nov 2025 - Present

ML Engineer | Personal Project

Philadelphia, PA

- Creating a simple web tool that accepts flower photos and uses a TinyML model (TensorFlow Lite / Lite Micro) to recommend to users whether a bouquet of flowers should be purchased or not
- Building a custom image dataset of flower bloom levels, labeling and preprocessing images for model training and quantization

SphereUS Website Redesign | MongoDB • Express.js • React • Node.js

Sep 2025 - Present

Full-Stack Developer | Penn SPARK

Philadelphia, PA

- Collaborating with a 7-member product team to build an Overlap Analysis dashboard, enabling brands to quantify and visualize creator audience intersections
- Enhancing influencer analytics workflow efficiency by 30% through improved data integration and dashboard usability

Aurout | React • Mapbox • GraphHopper • Yelp Fusion • Tailwind CSS

Aug 2025 - Present

Full-Stack Developer | Personal Project

Philadelphia, PA

- Engineering app that optimizes multi-stop trips, supporting walking, driving, and public transit routing
- Combining Yelp Fusion with GraphHopper/Mapbox for enhanced route recommendations
- Creating a responsive UI with real-time filters, reordering, and interactive map features

Leaflet | React Native • Firebase • Google Maps API • Figma

Sep 2025

Full-Stack Developer in Team BeLeafers | HackMIT 2025

Cambridge, MA

- Prototyped gamified app in 24 hours that enabled users to explore, share, and rank 400+ national trails
- Engineered this interactive map with custom pins and animations to support seamless exploration
- Implemented social features (likes, comments) in Firebase to cultivate community interactions

Roomies | React Native • Tailwind CSS

Jan 2025 - May 2025

Frontend Developer in Team Roomies | Penn SPARK

Philadelphia, PA

- Directed end-to-end frontend development for a roommate app coordinating chore management
- Implemented task assignment, daily dashboard, and a gamified leaderboard that increased household task completion by 30% for 50+ beta users
- Partnered with a 7-person development team to ship a polished MVP reviewed for public launch

PROFESSIONAL EXPERIENCE

Marketing Strategy Consultant - Vice President

September 2024 - Present

Penn Marketing Undergraduate Student Establishment

Philadelphia, PA

- Led 7-person team, placed 3rd/90+ teams at the 2025 AMA International Collegiate Case Competition
- Developed comprehensive Gen Z marketing strategies (with budget and timelines) for Adobe Express and MLB, projecting 45% and 60% engagement gains
- Redesigned core web interfaces with Figma mockups to improve app navigation, layouts, and flow

Global Program Leader

May 2025 - Aug 2025

International Student & Scholar Services, University of Pennsylvania

Philadelphia, PA

- Co-led three-day retreat for 40 first-year students, fostering intercultural exchange and awareness
- Facilitated team-building activities (e.g., "Snack & Tell"), promoting inclusive dialogue for students

Soft Robotics Researcher

May 2025 - Jul 2025

National University of Singapore

Singapore, SG

- Programmed a light-responsive robot to interface with gel, demonstrating functional integration
- Engineered biodegradable, light-emitting gel with 50% higher luminescence and 40% greater stability

SKILLS

Technical: Programming (Python, Java, C, C++), Web Development (React, Node.js), Cloud Platforms (AWS EC2, S3), Machine Learning (PyTorch, TensorFlow), Hardware (Arduino, XIAO), Design (Figma, Maya)

Languages: English, Korean (Fluent), Spanish (Fluent)

Personal Interests: Dancing, Video Game Creation, Marketing, Volleyball, Soccer, Swimming, Baking
